

Memo: 30

22.12.2020

Summer vacations are here! There is a lot of free time on ones hands. It is important to engage children constructively during the holidays. Simple tasks designed for the little learners aim at development of life and other skills as well.

'Doing is learning 'is the mantra that makes the little learners enjoy the fun activities and retain the pleasures of doing them as wonderful memories for a life time.

So Do, Enjoy, And Learn!
